## TROUBLE THREATENED ON MAUI

### JAPANESE CHARGE MURDER

INDIGNATION AROUSED BY THREE WHITE PHYSICIANS' REPORT THAT ALLEGED VICTIM OF AN EXPLOSION DIED FROM HEART DISEASE CAUSED BY KIDNEY TROUBLE—CORONER'S JURY ACCEPTS REPORT BUT COUNTY OFFICIALS DO NOT.

Walluku is greatly stirred up over the Douse murder case, and the Japanese on the plantations there have threatened to go on a general strike, if Douse goes free. Douse is the plantation engineer charged with murder as a result of the death of a Jap with whom he had a difficulty. Douse struck the Jap because he brought the wrong kind of oil when ordered to bring Douse some gas-oil. It is claimed that Douse threw the oil over the Jap and then threw a lighted match at him, with the result that there was an explosion and the Jap received severe injuries, followed by death. Four doctors performed an autopsy and the three white ones, Drs. Weddick, Deas, and McConkey—reported that death had been caused by heart disease due to kidney trouble, while Dr. Soda, Japanese, found death to have been caused

by nervous shock due to the injuries received.

Attorney General Andrews, who happened to be on Maui, was sent for by the Japanese, who were very indignant on hearing of a coroner's jury report, based upon this autopsy finding, exonerating Douse. "There were delegations from sixteen camps present when I was asked to visit them," said Andrews. "They had the idea that I, as the head of the Territorial law department, should be consulted and so sent for me and of course I went when asked for. They wanted to know if there was any chance for justice when a white man killed a Japanese, and said that the plantation was putting up money to have Douse cleared. There appeared to be great excitement about

### MANY RETURN FROM VOLCANO

KILAUEA VERY ACTIVE—INCREASED WEDNESDAY NIGHT—KINAU ARRIVED.

A large crowd of people returned today from the Volcano by the steamer Kinan. They report the volcano as unusually active. There was an eruption on Wednesday night, the sky being very bright with the reflection. Nothing appears to have been seen of the sudden burst of smoke sent up Thursday morning by either Kilauea or from the side of Mauna Loa.

Many people returned from way ports. The steamer stopped in at Kaulakaka. She brought a good sized amount of freight.

Admiral Beckley reports that the steamer Helena will arrive here tomorrow with some cattle from the Parker ranch. She will also have sugar. The steamer Likiepka is due here tonight with a load of cattle from the Hind ranch.

**NO NEED OF A DOCTOR.**  
Pains in the stomach and attacks of colic come on suddenly and are so extremely painful that immediate relief must be obtained. There is no necessity of sending for a doctor in such cases if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. No doctor can prescribe a better medicine. For sale by all dealers Benson, Smith & Co. agents for Hawaii.

**"MONEYBAK" SILK.**  
A printed guarantee goes with "Moneybak" silk to the effect that the buyer's money will be returned should any piece of this famous silk prove defective in material or dye after ordinary wear. N. S. Sachs Dry Goods Co.

### PEACE, OR OYAMA GOES FORWARD

(Associated Press Cable to The Star).

PORTSMOUTH, N. H., August 12.—The Russian reply was today delivered to the Japanese peace emissaries who will make an early reply to the communication from the Russian emissaries.

It is stated that in case of a rupture Marshal Oyama will immediately give battle to General Linevitch.

### RUSSIA ABANDONS HOPE

ST. PETERSBURG, August 12.—All hope of an agreement for peace being reached by the Japanese and Russian peace emissaries has been practically abandoned here. Minister De Witte, the chief Russian emissary, may soon return.

### Attempted Assassination

BUENOS AYRES, Argentina, August 12.—An attempt to assassinate President Quintana was made today by Biancas Vicello, a laborer. The would-be murderer was seized before he could fire. It is believed that he is insane.

**U. S. S. KANSAS LAUNCHED.**  
CAMDEN, N. J., August 12.—The battleship Kansas was successfully launched today.

**YELLOW FEVER OUTBREAK.**  
NEW ORLEANS, August 12.—The situation in regard to the outbreak of yellow fever shows signs of improvement today.

### SHERMAN BROUGHT MANY LOCAL PEOPLE

TRANSPORT ARRIVED THIS MORNING IN FAIR TIME FROM SAN FRANCISCO.

Heavy weather for a day or so after leaving San Francisco was the reason that the army transport Sherman did not lower the transport record between San Francisco and this place. As it was, she made the run down in 6 days, 22 hours and 14 minutes. The vessel left San Francisco August 5 so brought three days' later mail.

She brought a good sized crowd of passengers for Honolulu despite the fact of the recent order reducing transportation for outsiders, but the majority of them were official people.

Among the passengers for Honolulu was Mrs. Van Vleet, the wife of Major Van Vleet, the commander of the military forces at Camp McKinley. Mrs. J. C. Hanna, the wife of the Lieutenant Hanna of the 16th Infantry, was also a passenger for Honolulu. Mrs. J. F. Behr, wife of Lieutenant Behr of the Artillery Corps, was also an arriving passenger.

W. F. Frear, chief justice of the Territorial supreme court, returned from the mainland.

Mrs. S. A. Anthony and son, the family of a clerk in the engineering department of the army, arrived.

W. H. Rhodes, a clerk in the quartermaster's department arrived, accompanied by his wife and two daughters.

Miss Rosalie Weir, a local teacher, returned from the mainland.

Eldred H. Davis, who is to be clerk at the Naval Station, arrived.

E. B. Fogarty, sampler and verifier about Honolulu it seems by no means improbable that the former manager of the Young Hotel, H. Wingate Lake, may be seen back in his old position here before very many months. He is now comfortably fixed in California but both he and Mrs. Lake have an alibi for Hawaii and have never failed in their communications with old friends here to express their feeling. It is reported that an effort is now being made by the owners of the Young Hotel to induce Lake to return. Should he come back he and his wife will be assured of a hearty welcome from all Honolulu.

Herbert C. Thompson of San Francisco and W. L. Coleman of Louisville Ky., were among the returning passengers from Hawaii this morning. They visited Halekale on Maui and went to the Volcano House on Hawaii and were delighted with their trip.

### IROQUOIS MUST GO TO MIDWAY

CAPT. LYON NOTIFIED TODAY THAT IRIS WILL BRING SUPPLIES FOR HER TO TAKE.

Captain Lyon of the Naval Station received notice today that the U. S. S. Iris would come to Honolulu shortly with supplies or the marine guard at Midway. The supplies were to be left at Honolulu for the Iroquois to take to take to Midway. No idea of the time when the Iris could be expected to reach Honolulu was given.

The Iris was, according to last reports, to tow the gunboat Bennington from San Diego to Mare Island. No news of the departure of those vessels has been received. Evidently the Iris is bound for the Asiatic station. It is not unlikely that the Iris may tow the water barge from Mare Island to this port, as such a craft is to be located at Honolulu. The departure of the Iroquois will depend upon the arrival of the Iris.

E. H. Davis, the new clerk to the commandant, reported for duty at the Naval Station this morning, having arrived by the transport Sherman.

John J. Cook has been appointed messenger at the Naval Station under the civil service.

### THE LAKES MAY RETURN

From the rumors that are traveling about Honolulu it seems by no means improbable that the former manager of the Young Hotel, H. Wingate Lake, may be seen back in his old position here before very many months. He is now comfortably fixed in California but both he and Mrs. Lake have an alibi for Hawaii and have never failed in their communications with old friends here to express their feeling. It is reported that an effort is now being made by the owners of the Young Hotel to induce Lake to return. Should he come back he and his wife will be assured of a hearty welcome from all Honolulu.

Herbert C. Thompson of San Francisco and W. L. Coleman of Louisville Ky., were among the returning passengers from Hawaii this morning. They visited Halekale on Maui and went to the Volcano House on Hawaii and were delighted with their trip.

### Chinese Work On The Mainland Too

LECTURER TO GO FROM HERE TO POINT OUT THE ALLEGED INJUSTICE OF THE CHINESE EXCLUSION LAW—L. K. KENTWELL TO OPEN A CAMPAIGN OF EDUCATION BY LECTURE IN PORTLAND, OREGON.

L. K. Kentwell is going to the mainland to lecture on the alleged evils and injustices of the Chinese exclusion law, as agent of a local Chinese lodge of the Knights of Pythias. The Chinese who claim that the boycott movement started in Hawaii also propose to have an educational movement of another kind started in America and hope to accomplish a good deal by a "campaign of education" on the mainland, to cause improvements in the treatment of Chinese.

Kentwell has had a lot of opportunity to observe the workings of the law, and is thoroughly familiar with the subject. It is the belief of the Chinese that Americans are not generally aware of how the law has been enforced, and do not realize the severity of the regulations as they have been carried out. The rigid regulations under which Chinese testimony under oath is held as worthless, the photographing and summary treatment of many students and others who are entitled to land, are all only partially known in America, it is claimed, and Kentwell will be able to throw light on the situation and explain just what it is that the Chinese have begun to so actively resent. The ill-treatment of a prominent Chinese in America is said to have been one of the matters that called attention in the United States to the severity of the law, but it is claimed that many such instances can be shown.

Kentwell will go to Portland first and deliver lectures on the subject. The Portland Chamber of Commerce has recently declared against the exclusion policy, and Kentwell will probably be heard with a welcome. After Portland he may go to Californian cities, where a cordial reception is less likely. He goes under the auspices of a local Chinese lodge of Knights of Pythias.

### CAME TO STUDY VOLCANOES

PROFESSOR PERKINS OF THE UNIVERSITY OF VERMONT GIVES SOME OF THE IMPRESSIONS THAT HE FORMED ON THE NATURAL WONDERS OF HAWAII—HALEKALE HE RECKONS AS ONE OF THE WORLD'S GREATEST NATURAL PHENOMENA.

That the Hawaiian Islands were at one time much more numerous but collectively of smaller area than at present is one of the conclusions reached by Professor G. A. Perkins of the University of Vermont and State Geologist of the Green Mountain state and by Professor C. H. Hitchcock of Dartmouth, who have been here for several weeks past studying geological conditions in these islands.

"That the islands have been gradually built up, layer after layer from volcanic discharges seems certain," said Professor Perkins "and different separated islands have gradually become merged. Take Maui, for instance as a striking example of this. There cannot be any doubt that East and West Maui were once separate islands and the same may be said of Hawaii when Mauna Kea and Mauna Loa were once upon a time separated. Of course this

was many thousands of years ago, so long ago perhaps that it is impossible to compute it with any degree of accuracy.

"We have been studying the volcanic phenomena of the islands with a great deal of pleasure and profit to ourselves," continued the professor. "The problems presented here are unique and we were anxious to study for ourselves the different theories that have been put forward to explain their origin. No we did not come to us or to attempt to upset any theories, we came in the attitude rather of scholars to study conditions on the spot.

"Haleakala on the island of Maui is to my mind one of the most wonderful natural objects in the world. As a crater it is marvellous but to any man who loves nature the cloud effects to
